

# Centre County GOP Statement of Belief....

**W**e will state the truth in full, without apology: We declare that the United States of America is the most just and exceptional nation ever to exist on Earth.

We are proud of the fact — that our country was founded on Judeo-Christian principles, and we understand — that these values have dramatically advanced the cause of peace and justice throughout the world.

We know that the American family is the bedrock of American life.

We recognize the solemn right and moral duty of every nation to secure its borders.

We remember that governments exist to protect the safety and happiness of their own people. A nation must care for its own citizens first. We must take care of America first.

We believe in equal opportunity, equal justice, and equal treatment for citizens of every race, background, religion, and creed. Every child, of every color — born and unborn — is made in the holy image of God.

We want free and open debate, not speech codes and cancel culture.

We embrace tolerance, not prejudice.

We support the courageous men and women of law enforcement. We will never abolish our police or our great Second Amendment, which gives us the right to keep and bear arms.

We believe that our children should be taught to love their country, honor our history, and respect our great American flag.

We stand tall, we stand proud, and we only kneel to Almighty God.

This is who we are. This is what we believe. And these are the values that will guide us as we strive to build an even better and greater future.\*

In addition,

We believe education freedom allows families to escape underperforming schools and empowers parents to advocate for their children to ensure for them a brighter future and a way out of poverty

We know a strong economy, created by free markets and limited government regulations, provides individuals with opportunity for employment, entrepreneurship and self-empowerment.
